

## Mac Lewis: Co-opted Governor

I have been actively involved at Milton since 1999, with the MSA as treasurer until 2007, and in setting up and running the school website.

My background is in software development for the plant, power and marine industries, giving me experience of working with people from many cultures. I have helped with cubs scouts for the last ten years and so know many of the children.

I am currently Child Protection governor and take an interest in all aspects of our work from the safeguarding point of view. I am also involved in the Eco Schools initiative and in our extended schools provision.
